

GABRIELE BASILICO | LISTEN TO YOUR HEART CITY

"Well, that was up to you. We told you." whether they peed themselves, all sorts of kinky stuff." his hair. "Who?" Driscoll asked automatically, tossing his cigarette butt into the incinerator and snatching up his gun. A cover in the top of Wellington's chest slid aside to reveal a small display screen on which the figures of Sirocco and Colman appeared, viewed from above. They were walking at a leisurely pace, along a corridor, talking to a handful of Chironians who were walking with them. Driscoll resumed his former posture, and moments later footsteps and voices sounded from along the wider corridor leading off to the right, and grew louder. Behind the truck, the highway remains deserted. The parallel median lines, yellow in daylight, appear. "I think so. I can find it anyway." Behind him, underlying the steady rhythmic crash of the hammer, the tire iron took up a syncopated beat. maintenance ladders, and catwalks. There was no other way through or round the bulkhead. But he did have strong principles and a disposition to discretion and not being impetuous, which was why Judge Fulmire had felt safe in confiding his misgivings about the situation that he suspected was shaping up behind the scenes, politically. By creating the Circle of Friends, he wove an image as a compassionate thinker with innovative. Bernard acknowledged with a nod and leaned forward to speak in a low voice to the face that had appeared on an auxiliary screen. "This is urgent, Admiral. Make sure that all the sky-roof outer shutters are closed immediately." Tuesday afternoon, wearing a bikini and oiled for broiling, Micky reclined in a lounge chair in her aunt. This mutt isn't, as Curtis first thought, his brother-becoming. She is instead his sister-becoming, and that's. In the driver's seat, the startled woman comes unstartled enough to speak, but the boy can't make out. The ears arc pricked, the head lifted, the nose twitching. "Stern's setting up a missile strike in there right at this moment-a big one." Colman frowned, rubbed his brow, and in the end tossed out his hand with a sigh. "No . . . we're not making the right point somehow. Let's put it this way--how can you measure who owes who what?" The painter scratched his nose and stared at the ground over his knuckle. Clearly the notion was new to him. -. aliens or his vessel might spiral into the gravitational vortex of a black hole while he dreamed of Britney. on remembering it, keeping the details sharp, especially his smile. Were her misgivings now the early-warning signals from a part of herself that had already seen the cracks appearing in dreams that were destined to crumble, and which she consciously was still unable to admit? If she was honest with herself, was she deep down somewhere beginning to despise Howard for allowing it to happen? In the bargain that she had always assumed to be implicit, she had entrusted him with twenty years of her life, and now he was betraying that trust by allowing all that he had professed to stand for to be threatened by the very things that he had tacitly contracted to remove her from. Everywhere Terrans were rushing headlong to throw off 'everything that they had fought and struggled to preserve and carry with them across four light-years 'of space, and hurl themselves into Chironian ways. The Directorate, which in her mind meant Howard, was doing nothing to stop it. She had once read a quotation by a British visitor, Janet Shaw, to the Thirteen Colonies in 1763, who had remarked with some disapproval on the "most disgusting equality" that she had observed prevailing on all sides. It suited the present situation well. top drawer on the nearest nightstand. He puts one eye to the inch-wide gap and studies the bathroom beyond, which separates the bedroom. "Ah." Leilani's eyes widened. "You're the twelve percenters." If she retreated to the yard, however, she would be shirking her responsibilities. Which was exactly what. The Chironian answered in a slow, low-pitched, expressionless drawl without turning his head. "We tracked 'em for two days, and when enough of us had showed up, we closed in while another group landed up front of 'em behind a ridge to head 'em off. When they moved into a ravine, we covered both exits with riflemen and let 'em know we were there. Gave 'em every chance . said if they came on out quiet, all we'd do was turn 'em in." The Chironian inclined his head briefly and sighed. "Guess some people never learn when to

quit." At the foot of the steps, he's paralyzed by dread. Perhaps the killers are already here. Upstairs. Waiting. Explorer. But they were less forthcoming about details of their administrative system, which had evidently departed far from the well-ordered pattern laid down in the guidelines they were supposed to have followed. The guidelines had specified electoral procedures to be adopted when the first generation attained puberty. The intention had been not so much to establish an active decision-making process there and then--the computers were quite capable of handling the things that mattered but to instill at an early age the notion of representative government and the principle of a ruling elite, thus laying the psychological foundations for a functioning social order that could easily be absorbed intact into the approved scheme of things at some later date. From what little the Chironians had said, it seemed that the early generations had ignored the guidelines completely and possessed no governing system worth talking about at all, which was absurd since they appeared to be managing a thriving and technically advanced society and to be doing so, if the truth were admitted, fairly effectively. In other words, they had to be covering a lot of things up..into withdrawal." ticking away. The truck stop is a hot zone; they need a ride out to a more comfortable place where the. "Oh, little mouse, what's wrong with me that I let the child go back there?".we're proud of them."."It's Michelina."The small group of Chironians watching from a short distance away and the larger crowd gathered behind them in the rear of the antechamber applauded enthusiastically and beamed their approval. They weren't supposed to do that. It didn't preserve the fight atmosphere..conditioning..In three clinkless steel-assisted steps, Leilani reached the door. Ear to the jamb. Not a sound from the.Ci repeated the performance. "Who are you?" she asked him..remarked with a delighted leer on his face. "It is, isn't it," Colman agreed dismally..With all public bars having been put off-limits to the Mayflower Ifs soldiers after the shooting, the party couldn't have come at a better time, Colman reflected as he leaned against the bar and nursed his glass while gazing around the room. Swyley and Stanislaw were behind him in a corner with a mixed group of Chironians and seemed interested in the planet's travel facilities; Sirocco was with another group in the center of the room discussing the war news with another group, and Maddock, looking slightly disheveled, was sprawled along a couch in an alcove on the far side with his-arm draped around Wendy, another girl from the Mayflower II, who seemed to be asleep. It was especially nice to get away from the political row that had been splitting the Mission into factions ever since the morning after the shooting. Kalens wanted to impose Terran law on Franklin, Lechat wanted everybody to move to Iberia, somebody called Ramisson wanted to disband Congress and phase into the Chironian population, and somewhere in the middle Wellesley was trying to steer a course between all of them. At one extreme some people were ignoring the directive to remain in the Canaveral area and moving out, while at the other some were supporting Kalens by staging anti-Chironian demonstrations with demands for a get-tough policy. Padawski and the group who had been with him at The Two Moons, including Anita, were being confined to the military base at Canaveral pending a hearing of the charges of disobeying orders and disorderly conduct. In addition Ramelly had been charged with assault, and Padawski with failing to uphold discipline among members of his unit as well as with publicly issuing threats. The threats were the main reason for Padawski's group being confined to base, since some politicians were worried about possible reactions from the Chironians if they were allowed out and about. Colman couldn't see any risk of retaliation, since none of the Chironians that he had talked to attached any great significance to the incident. He only wished more of the politicians would see things the same way instead of blowing the incident out of proportion to suit their own ends. If they had stayed out of the situation and left the Army to deal with its own people in its own way, the whole thing would probably have been forgotten already, he thought to himself..Donella's stern expression softens slightly, though she still won't give the enchanting smile with which she."Your bones get soft."."Oh, that locomotive!" lean looked at lay. "Why.Bernard looked at Lechat. Lechat frowned and seemed about to object. Then he thought some more about it and, in the end, sighed, showed his empty palms, and nodded. Bernard turned back to Jay. "Okay, see what you can do. If you do find him, ask him to get over here as soon as he can make it."The preacher wheeled round and fixed him with an intimidating glare that failed to intimidate. "Especially my dad. It's funny that he wasn't told anything about it."."He's quite the philosopher."."That's a gamble we'll have to take," Sirocco said. "Sterm will hardly order them to fire on the rest of the ship if he's in it."..Silence..and to let her stubbornness rest in its scabbard. Now she said, "Just milk, Aunt Gen."In the night, brake lights on scores of vehicles flash across all three of the westbound lanes. More than."I went, but I didn't listen much. The loud drumming of fear with which he has lived for the past twenty-four hours has subsided to a faint day. "We'd simply have remained shut up behind a fence, ignored, and looking ridiculous." Instead, though most of the members of the SWAT platoon see Curtis, no one looks twice at him. Scant. Instead, she told herself that now more than ever, she needed her anger, because it was her fiery wrath. Leilani's intuitive understanding of the hell that Micky had long ago endured was uncanny. The empathy. "Clear to exit," the Dispatching Officer informed Sirocco. "Lock clear for exit," Sirocco called to the cabin below. Fulmire endorsed the idea and said he thought that a lot of other people were beginning to feel the same way, which started Lechat thinking about forming an official Separatist movement and seeking nomination as a last-minute candidate in the elections. Soon afterward he began to sound out sources of support, and since his interests had put him on close terms with most of the Mission's scientific professionals, they were near the top of his list of likely recruits. Among them was Jerry Pernak, whose researches Lechat had been following with interest for several years. Accordingly, Lechat invited Pernak and Eve Verity to dinner with him one evening in the Fran?oise, a restaurant in the Columbia District frequented mainly by political and media people, and explained his situation.. hundred yards to the west. On the snake-driving mood!" Surely one of the men will make at least a halfhearted attempt to search for the five bucks.. Sterm was unperturbed, as if he had been expecting such an answer. "I made no mention of your wanting to save yourself physically. I have already pointed out that we are both realists, so there is no need for you to feel any obligation to pretend that you misunderstood." He paused as if to acknowledge her right to reply, but gave the impression that he didn't expect her to. She raised her glass to her lips and found that her hand was trembling slightly. Sterm resumed. "The dream has crumbled away, hasn't it, Celia. I know it, you know it, and a part of Howard's mind knows it deep down inside somewhere while the rest is going insane. You expected to share a world, but instead all you stand to share is a cell with a madman. The world is still out there but you cannot accept it as it is, and Howard will never be able to change it now." Sterm extended a hand expressively. "And the future awaits you." He paused again, watched as Celia lowered her eyes, and nodded. "Yes, I could persuade Wellesley to overrule the eviction orders, or arrange for Borftein to reinforce the Phoenix garrison, put SDs around the house so that you would never have need to fear for your safety. But is that what you want me to do?" The thought sent a quiver of resentment through her as she sat on the sofa below the large wall screen, watching the face of Howard Kalens as he denounced Wellesley's "policy of indecisiveness" as a contributory factor to the killing of the soldier who had been shot the previous night, and called for "some positive initiative toward taking the firm grasp that the situation so clearly demands." Slam the door. Throw shut the locks, the bars, the bolts. Before the girl could say more, Micky turned.. probable or fair, and as good as she looked in daylight, she was even prettier here. Bleeding, of course, is a quiet process.. get here is crawl, and if she tried to eat anything in her condition, she'd just puke it up." In the Sharmer case, Bobby didn't catch the jolly approach of the Beagle Boys with their sledgehammer. Inside the room, the captives looked around in surprise as muffled thuds sounded just outside the door. The steward who had just brought in the evening meal opened the door, and soldiers in battledress poured in. Wellesley gasped as he saw Lechat with them. "Paul!" he exclaimed. "Where have you been hiding? You're the only one they didn't pick up. What-" "So where do you go?" Jay asked again.. light into a few of the rooms in her heart. Until then, she had long resisted such explorations, perhaps out.. Colman was becoming irritated again. No one on the ship had met a Chironian yet, but everyone was already an expert. All anybody had seen were edited transmissions from the planet, accompanied by the commentators' canned interpretations. Why couldn't people realize when they were being told what to think? He remembered the stories he'd heard in Cape Town about how the blacks in the Bush raped white women and then hacked them to pieces with axes. The black guy that their patrol had interrogated in the village near Zeerust hadn't seemed the kind of person to do things like that. He was just a guy who wanted to be left alone to run his farm, except by that time there hadn't been much left of it. He'd begged the Americans not to nail his kids to the wall--because that was what his own people had told him Americans did. He said that was why he had fired at the patrol and wounded that skinny Texan five paces ahead of Hanlon. That was why the white South African lieutenant had blown his brains out. But the civilians in Cape Town knew it all because their TV's had told them what to think.. After a mintless scrubbing of her teeth, Micky retreated to her tiny bedroom, which she'd already.. laughter of a secretly forlorn clown: genuine if you listen with just your ears, but sadly fraudulent if you.. creature that Karloff played.. have been more complete.
